Dear participant,

On behalf of the EMCCC organising committee of the 8th European Multidisciplinary Colorectal Cancer Congress (EMCCC-8), we invite you to participate in this meeting, which will take place from 11-13 December 2016 at the RAI Amsterdam Convention Centre, Amsterdam, The Netherlands.

EMCCC-8 is the European conference that truly provides a platform for in-depth multidisciplinary interaction among the various research areas involved. The Dutch Colorectal Cancer Group (DCCG) has taken the initiative for the EMCCC since 2001. The conference in 2016 builds upon seven previous successful multidisciplinary conferences on colorectal cancer which were held in the Netherlands, Germany and France. The EMCCC offers an intimate scientific/educational environment for 700 participants.

The conference will feature parallel workshops on surgery, medical oncology, radiotherapy, pathology, imaging, gastroenterology, and genetics. All other sessions are plenary in order to have optimal interaction between all disciplines. The format of the conference consists of workshops, keynote lectures, controversy sessions, satellite symposia and poster presentations. The meeting is designed for surgeons, medical oncologists, radiotherapists, gastroenterologists, pathologists and others with interest in colorectal cancer.

It must be understood that this letter does not represent a commitment on the part of the meeting organisers to provide any financial assistance.

Sincerely,

Sander Zikkenheimer  
Congress Care
